

Cereal terminals

Leading Western European port for cereal exports, HAROPA PORT serves as a major agro-industrial hub at the heart of France's main agricultural production areas. Its terminals, combined with the expertise of industrial and logistics operators located across its sites, offer shippers a wide range of services dedicated to the agro-industrial sector. Beyond cereals, HAROPA PORT handles a diverse array of products: flour, semolina, soybean and rapeseed meals, beet pulp, fruit and vegetables...
