An exceptional location:

- It is located at the entrance to **Europe's north-western range**,
- It is the **first Northern European port of call for imports and the last for exports**
- It is the maritime gateway to the Paris area,
- to the biggest consumer market in France and the second biggest in Europe,
- to Roissy Charles De Gaulle airport, Europe's leading airport for freight,
- to Rungis international wholesale market, the world's leading fresh produce market.

Its key advantages

- It ranks in **first position in France and 5th among Northern European ports for containers**
- Its **transit times are advantageous** for imports and exports for most maritime services,
- New York in eight days,
- It has container terminals that are entirely privately owned, with no congestion,
- Its port services are **certified to ISO 9001 standard** – a guarantee of efficiency.

The right facilities for the biggest container ships and an end-to-end container service offering

- **Continuity of service on the Seine axis** from Le Havre to Rouen, up to entry into Paris,
- ISPS-certified facilities (Le Havre and Rouen),
- **ISO 28000 certification** (Le Havre security management),
- A common Cargo Community System across all Seine axis terminals.

HAROPA PORT: a maritime offering in the first rank

- It is the first port of call for imports and the last for exports in the North European rotation,
- It has the necessary capacity for reception of giant container ships,
- It is one of the few deep-water ports in Europe (up to 17m).
