Événement Seminar on Hydrogen Solutions for Inland and Short Sea Shipping - 29th October in Paris

HAROPA PORT is delighted to participate to a seminar organized by H2SHIPS project on Hydrogen Solutions for Inland and Short Sea Shipping in Paris, on Friday 29th October.

Publié le 25/10/2021 - Mis à jour le 28/08/2023

Seminar on Hydrogen Solutions for Inland and Short Sea Shipping

Friday 29th October 2021 from
11:00 to 14:00 CET, Paris

At the occasion, institutional speakers, shipowners and operators will give insights into the context and stakes of the energy transition in shipping, and present current hydrogen-fuelled shipping initiatives.

The Seine axis Major River & Sea Port will explain the role of infrastructure managers in the waterway transition in France.

The Seminar takes place from 11:00 to 14:30 CET on the ship Paris Etoile at the port of Grenelle on the Seine River and will be followed by a lunch cruise.

The H2SHIPS project H2

SHIPS aims to demonstrate the technical and economic feasibility of hydrogen for waterway transport and to help hydrogen become a widespread solution for shipping in North-West Europe.

The project supports the creation of a hydrogen value chain to boost the uptake of hydrogen solutions for waterway transport.
