

# Multimodality: the way forward for agile, high-performance supply chains

## THE ADVANTAGES

- supply chain decarbonisation
- logistics costs optimisation
- complementary transport services
- logistics storage capacity

## STREAMLINE YOUR SHIPMENTS BY COMBINING ROAD, RAIL, RIVER AND SEA THANKS TO HAROPA PORT'S EXTENSIVE NETWORK:

- **Road** to ensure fast and flexible connections from seaports to warehouses;
- **Rail** to connect the hinterland with global maritime services;
- **River** to link Paris and its large consumer market to the Seine corridor;
- **Short sea** to reach nearby and regional supply markets.

To find out more about our transport network and services:

## RAIL

- 120,000 containers by rail;
- 100 round-trips per week;
- 20 destinations in France and surrounding countries;
- 5 operators;
- 9 times less CO<sub>2</sub> emissions than road transport.

## RIVER

- 220,000 containers by barge;
- 20 round-trips per week;
- 10 destinations along the Seine axis;
- 4 operators;
- 5 times less CO<sub>2</sub> emissions than road transport.

## SHORT SEA

- 120,000 containers;
- 50 ports of call;
- 10 shipping companies;
- 5 times less CO<sub>2</sub> emissions than road transport.

*Average annual figures*
